OFFICE.

ST. ALBANS.

H. A. CUTLER, Proprietor.

All Printing brought to this Office, both Plain and Ornamental, will meet with prompt attention, at prices as low as the times will admit. We do our work much better than can any Office that will do a job of printing for nothing for the sake of depriving us of it, and we are ready to compare our work with any similar class of printing done in the cities, both in neatness and price.

Hand your orders into the Transcript Book and Job Printing Establishment if you take any pride in having your printing done in a workmanlike manner.

ALL READY.

NEW STEAM MILL!

Bingham & Lincoln, Near the Freight Depot, St. Albans, Vt.

Is now ready to grind corn meal, fine or coarse, and all kinds of grain for feed. This Mil was built by Holmes & Blanchard, of Boston, of the best French Burr, is complete in eveton, of the best French Burr, is compare in every respect, and is capable of grinding twentyfive bushels per hoar. Being dependent of
neither wind or floods for power, we can do al
work of this kind without hindrance to our customers. We shall be prepared to furnish cori
in the kernel, or ground, and at all times fresh
and as cheap as elsewhere. We are also read
to precise orders for Sash, Blinds and Doors,

Mouldings and House Finishings of every de-

scription, of as good material and workmanshi as any other shop in the State.

REAT IMPROVEMENT IN DENTIS-The attention of the public is called to a great

The attention of the public is called to a great discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting a select the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate. The improvement is not in material, but in the construction, which scurres the atmospheric pressure on the entire plate.

The improvement is not in material, but in the construction, whichs courses the atmospheric pressure on the entire plate.

Thave sold the exclusive of said improvement to Dr. L. Giman, to wit, the Counties of Frankin, Washington, Chittenden, Lamoulle and Grand Isle. Those wishing to avail themselves of such improvement, will call on

CIRCULAR. The attention of Town Superintendents,

Teachers, and others interested in the cause of popular education in the State of Vermont is called to Section 2, Act No. 2, of the Laws of Vermont for the year 1866, which reads as follows :

Section 2.- The Board of Education are hereby anthorized, and it is made their duty, on or before July 1, 1967, and on or before said date every fifth year thereafter, to select a list of such grammars, geographies, arithmetics, his-tories of this State and the United States, philosophies, algebras, readers and speakers, not exceeding one book of a kind in each branch, as they shall deem best suited for instruction and use in the district schools in this State, in each of said branches; and shall cause the list so of said branches; and sain cause the list so selected to be published in all the news, apers published in the State, during the month of January next following the making of such se-lection; and also to be inserted in each school register issued after one year from the makin of such selection; which list, so selected, shap or and remain authoritative and inding upon the Board of Education, supe n indents and teachers, and during five years from and after November 1, 1868, and each five years those of ter; and superintendents and feachers share recommend for use in the district schools, as new books shall become necessary for instruction in the branches named, no other than the books included in said list so selected and pub-

The following is an extract from the Repor of the Board of Education, for the year 1867.

Mitchell's First Lessons, Primary, and Inter-mediate Geographies were adopted, for thes-reasons, in brief; the simplicity and elearness of the text, the gradual and constant advance ment from the primary truths to the higher departments o geographical knowledge, the con-ciseness and completeness of the definitions, the elegance and accuracy of the maps, the artractiveness of the pictorial illustrations, and the uniform method of treating topics that ar-similar to each other. Since the adoption o-chose books, the publishers have taken measchese books, the publishers have taken measures to prepare a spec a, edition of the Intermidiate Geography for use in the schools of Vermont. This edition wil contain a new quart map of the State, engraved the copperpare; and our pages of etter press and questions, relating to the geography of Vermont to be prepared by few Piny H. White, it is believed that this feature, while it is not to increase the cost of the books, will materially increase its value and the interest with which it will be studied. McNaily's Physical tecography, accompanied by McNaily's Physical Geography, accompanied by McNaily's Physical Geography, accompanied by Monteith's Lessons in Astronomy, was adopted to be used in those departments of the study which are indic ted by their titles. Guyots Common school Geography was adopted as a Physical Geography of a grade different from the Naily's

inasmuch as there seems to be some misap prehension as to the intention and design of the Board in recommending the different text-books in geography, it seems proper to state that it was their intention to recommend the use of Mitchell's Geographies by all classes which have hitherto used, or which would otherwise use Cornell's, and that they did not design that Guyot's Geographies should be used, except by pupils who, having passed through Mitchell's, desire to advance to the study of physical geography by Guyot's method. The publishers of Mitchell's New Geographics

vill send agents into every town in the State, to supply schools according to the terms annexed, and it is hoped that superintendents will furnish every facility for the speedy prosecution of their business. John B. Page L. F. WARD, A. J. SANBORN, M. CLARKE, JUNY H. WHITE, JONATHAN ROSS, D. D. GORBAM,

A. E. HANKIN, Secretary. Price List of Mitchell's Geographies, FOR INTRODUCTION AND EXCHANGE.

State Board of Education.

Retail. Introd'et'n. Exchange. First Lessons \$0.50 \$0.36 Old book and 25c. Princary 80 60 " " Intermediate 1.80 1.40 " "

In calling attention of Superintendents and 'reachers to the above statement of the State Board of Education, the subscribers would say that, immediately upon the opening of the district schools, our travellers will visit each town in Vermont for the purpose of furnishing Mitchnll's New Geographies in exchange for those now in use. All persons interested, who may desire further information in relation to the exchange, will please address, Lorenzo B. Peck. Montpelier, Vt.
